TECHNICAL PROGRAMME

Poster Session

Permanent posters were displayed from Sunday 19 October to Friday, 24 October 2003. The aim was to provide delegates with an overview of the PIARC Technical Committees and their products. Each Technical Committee presented two posters.

Authors of individual papers accepted by Technical Committees presented their papers on a technical poster. Space was made available for the duration of the Congress.

Technical Programme at a Glance

The programme of the different sessions is presented in the Table below together with the indications of the room allocation and of interpretation according to the following code of colours.

Interpretation in French, Spanish and Portuguese

Interpretation in Portuguese
